Art Unit: 3727

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Canada on 12/12/2000. It is noted, however, that applicant has not filed a certified copy of the Canadian application 2,328,032 as required by 35 U.S.C. 119(b).

2. This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

3. The disclosure is objected to because of the following informalities: Applicant appears to have used reference numeral "40" to describe both a tongue and prong orifice on page 6.

Appropriate correction is required.

4. Claim 18 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Applicant is advised that claim 18 is dependent from claim 21 whereas, it appears it should be dependent from claim 17.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3727

Applicant is advised that there isn't any proper antecedent basis in claim 21 for "said means for hanging", as claimed in claim 18. It may be noted that the means is set forth in claim 17. In like manner, there isn't any antecedent basis in the claims for "said first face", as claimed in claim 21. It may be noted that only a front and back face are set forth in claim 1.

6. Claims 18 and 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

7. Claims 1, 2, 7, 8, 11-17, 19, 20 and 22 are allowed. Claims 3-6, 9 and 10 have been canceled.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents show belt and garments packages and other packages with applicant's features.

9. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
